ABOUT

My name is Parada (Alice) Richardson. I am originally from Thailand, and I have lived in the USA for almost 4 years now. My move to America has been a dream come true. I earned a degree with a major in interior design, and a minor in architecture. I love the opportunity to be creative and work to solve problems. Becoming a software developer is the next chapter in my life, and I very interested and passionate to be able to learn this new skill

Creative and enthusiastic. Very personable, with a talent for developing solid client relationships. Outstanding work ethic with a dedication to exceeding expectation. Willingness to learn and eager to always improve upon my skills.
